or political subdivision with taxing authority has unconditionally agreed to provide funds to cover payments.

(d) *What is appropriate underwriting for this type of investment?* In the case of a security rated in one of the four highest investment grades by a nationally recognized rating agency, your assessment of the obligor's credit quality may be based, in part, on reliable rating agency estimates of the obligor's performance. For all other securities, you must perform your own detailed analysis of credit quality. In doing so, you must consider, as appropriate, the interest rate, credit, liquidity, price, transaction, and other risks associated with the investment activity and determine that such investment is appropriate for your institution. You must also determine that the obligor has adequate resources and willingness to provide for all required payments on its obligations in a timely manner.
